TRAINING & TRANSFORMATION CERTIFIED OT CYBER TRAINING (TÜV RHEINLAND)

EMPOWER YOUR WORKFORCE, STRENGTHEN YOUR DEFENSES, BUILD TRUST

Industrial operations demand staff trained to international standards. Without structured certification, awareness programs can lack credibility, consistency, and global recognition.

Arista Cyber, in collaboration with TÜV Rheinland, offers the Certified OT Cyber Training Program an internationally recognized pathway to demonstrate competency in securing Industrial Automation and Control Systems (IACS). The program follows the ISA/IEC 62443 framework and builds expertise in both Cybersecurity Fundamentals and Security Risk Assessment (SRA), ensuring participants gain the knowledge and credentials to safeguard critical operations.

KEY BENEFITS

- Globally recognized TÜV Rheinland certification.
- Comprehensive coverage of OT security aligned with ISA/IEC 62443.
- Builds individual competency and organizational credibility.
- Career advancement and risk reduction

DELIVERABLES

- Comprehensive training aligned with ISA/IEC 62443 requirements
- Access to structured modules covering Cybersecurity Fundamentals and Security Risk Assessment
- Real-world case studies and industry-relevant scenarios
- Preparation materials and recommended pre-reading aligned with ISA/IEC 62443
- Competency exams (Fundamentals & SRA)
- TÜV Rheinland-issued CySec Specialist Certificate upon successful completion

OUR APPROACH

- Expert-led training sessions from certified instructors
- Hands-on workshops tailored to industrial operations
- Interactive simulations of OT attack/defense scenarios
- Practical guidance on applying ISA/IEC 62443 concepts in daily operations
